

# Roofing Concerns During COVID-19?

We understand the uncertainty and concern businesses may have. Rest assured, you can still get your roofing projects completed!

## How we're doing our part:

### Keeping our customers and associates safe

- Keeping in full compliance with all CDC regulations as well as federal, state and local rules and recommendations
- Wearing face masks, gloves and practicing regular hand washing
- Cleaning and disinfecting frequently touched objects
- Practicing social distancing
- Avoiding unnecessary contact with others

### Working with you through your financial concerns

- Working within your budget parameters to get the job done
- Talk with your CentiMark rep about payment term options so you can get your roof work completed now to keep smaller issues at bay

### Keeping crews outside of your building

- Using exterior ladders and scaffolding when needed
- Rigorously cleaning tools and equipment
- Practicing strict safety protocols
- Bringing in porta-potties and self-contained washing stations

### Adjusting our business operations

- Operating according to the state-by-state restrictions and guidelines
- Only letting essential associates work when needed
- Strictly adhering to all recommendations as stated by the CDC if an associate needs to enter your building

### Helping you maintain your facility

- Helping you get your roof work completed sooner than later to avoid unnecessary leaks or damage
- Partnering with you to save you money long-term

Know that we are your partner during this time and are working around the clock to monitor the current COVID-19 situation and make changes and adjustments as new information becomes available.

At the end of the day, we want your facility to be watertight and ready for when your business is back to full speed. Talk with us today and let us handle your roof - you have more important things to worry about.
